V IN ART

This project has been an opportunity for young people to learn about the techniques of using spraypaint and adapting different styles . The project has enabled young volunteers to adapt images using specialist software. Volunters have also been shown how to build up layers of the design and how to do this with the paint.

Volunteers have also had the opportunity to create stencils and even had the experience of wall-papering.
The art project is ongoing at present and we hope to complete by the end of the month.
We will also be doing similar projects within the hostels, so if you would like to get involved contact Gemma or Stephanie at The Haven Wolverhampton.
